

Joko Wasono

Remote Frontend Developer | React & Next.js Specialist

Email: wasonoj@gmail.com Phone: +62 896 6618 4844 Location: Jakarta, Indonesia

Portfolio: joko-react-portfolio.vercel.app

PROFESSIONAL SUMMARY

An Informatics Engineering graduate with a solid background in IT infrastructure, system operations, and core web development. Highly passionate about software engineering and transforming programming languages into impactful, user-centric web applications. Specializing in crafting immersive, dynamic, and high-performance interactive interfaces using a cutting-edge frontend stack, including HTML, Tailwind CSS, React, Next.js, Three.js, and Framer Motion. Proven track record of cross-functional support, seeking a remote Frontend Developer role to contribute high-quality digital products within a dynamic, international team environment.

TECHNICAL SKILLS

Frontend Development:	HTML, CSS, Tailwind CSS, Bootstrap, React.js, Next.js, Three.js, Framer Motion
Backend & Databases:	Golang, Restful API, MySQL, PostgreSQL, Docker
Tools & Systems:	Git, GitHub, Linux (Ubuntu/Bodhi), Windows Systems Management
IT Infrastructure:	PC/Notebook Troubleshooting, Local Area Networks (LAN), Hardware & Software Operations, CCTV Systems

PROJECTS

Chirp Market (Chirp-Market E-Commerce)

chirp-market.vercel.app

Next.js, Tailwind CSS

- Designed and developed an e-commerce platform dedicated to songbird enthusiasts.
- Implemented modern responsive UI/UX and structured frontend layouts to ensure seamless user browsing.

Triascare Health (Clinic Web Application)

triascare-health.vercel.app

Next.js, Tailwind CSS

- Developed a highly professional healthcare web application for clinics.
- Optimized page load speed and designed clean, accessible layouts tailored to patients and medical staff.

Inventory Management System

inventory-joko.vercel.app

Next.js, Tailwind CSS

- Built an inventory tracking web application to streamline stock management and workflow visualization.
- Focused on robust state handling, clean table elements, and highly functional dashboard design.

PROFESSIONAL EXPERIENCE

Indosat Helpdesk / IT Operations Support

Dec 2013-Apr 2023

Karya Solusi Prima Sejahtera (KSPS)

- Managed daily enterprise helpdesk ticketing operations and technical infrastructure workflows.
- Maintained network integrity and system availability, reducing operation bottlenecks through swift troubleshooting.
- Collaborated with multi-tiered tech support entities to guarantee maximum operational efficiency and strict SLA compliance.

IT Staff

Sep 2009-Nov 2011

Zurich Hotel Balikpapan

- Administrated internal local networks (LAN), resolved hardware-software failures, and managed the property's hospitality technology assets.
- Deployed routine database and data storage updates, minimizing critical business data loss risks.

Senior Technician & Customer Support

Apr 2003-Aug 2009

Shop Toshiba (PT. Aneka Infokom Tekindo)

- Led diagnosis, component-level hardware repair, and OS performance tuning tasks for official Toshiba product users.
- Delivered high-tier customer satisfaction metrics by streamlining product diagnostic timeframes.

Technical Support Specialist

Oct 2002- Mar 2003

PT. Hanaro Infocom

- Handled network configurations, broadband internet client infrastructure setups, and on-site hardware alignment.

EDP Staff (Electronic Data Processing)

Apr 2001 Mar 2002

PT. Inko Erema

- Processed industrial business data flows, generated technical production logs, and performed system server infrastructure health checks.
